# C204

Public address speaker  
100V line input

## Presentation:

Range of public address passive speakers in a lightweight AL profile. Both C8 and C16 column speakers are constructed in a narrow aluminum profile featuring 1.5" rubber cone transducers while C104/C204/C404 and C604 feature 4" transducers, all with an integrated 100V line transformer allowing multiple speakers to be connected together without danger of overloading the power amplifier due to impedance drop. All models are supplied with wall mount supports/brackets, available in 2 colors: black and white. This range of speakers is the perfect solution for all kind of public address installations, designed to offer a cost effective but professional solution, suited for installations such as conference rooms, congress centers, supermarkets, shopping malls, etc.

## Features:

- Public address installation speaker
- Cost-effective solution for installations
- 2x 4" FR transducer
- Suitable for 100V high imp. installations
- Solid and elegant aluminum construction
- Custom perforated metal grille
- Textured powder coating finishing
- Supplied with wall mount "L" brackets

## Technical specifications:

### Acoustical

Configuration  
 Power handling capacity  
 LOW/MID freq.  
 Frequency response  
 Horizontal coverage angle  
 Vertical coverage angle  
 SPL (1W/1kHz)  
 High impedance input  
 Connector

Public address column speaker  
 20W rms  
 2x 4" woofer  
 120Hz - 18kHz  
 120°  
 30°  
 95dB @ 1m  
 100V line transformer  
 Terminal - spring type
