

# UR-280 | Dual-Channel True Wireless Microphone System

## Description

UR-280 Dual-channel diversity wireless microphone system is a wireless microphone system condensed from the essence of Relacart's many years of technology. It has advanced technology, stable performance and exquisite design. The 64MHz bandwidth brings better transmission performance; the volume gain is adjustable in 1dB steps. Three levels of RF power are optional, and multiple levels of SQ are available. The microphone is equipped with a TFT display, so the device status is clear at a glance. It is fully suitable for high-demand KTV, multi-function halls, hotels, conference rooms and small and medium-sized performance venues.

## Product Specification

Receiving sensitivity:	5dBv, S/N ≥ 60dB at 25KHz deviation
Channel bandwidth:	64MHz (depending on region)
Max. Deviation:	±45KHz
Comprehensive S/N:	> 105dB
Comprehensive T.H.D:	< 0.7% @ 1KHz
Frequency response:	60Hz ~ 18KHz ±3dB
Antenna interface:	Dual BNC supports +12V/150mA output
Audio interface:	6.3mm unbalanced audio output, XLR balanced audio output
